Teaching at FH Münster University of Applied Sciences

It brings Felix great joy to prepare students for the challenges and opportunities of our interconnected world, ensuring they become strong critical thinkers and capable problem-solvers. To achieve these goals, he teaches courses in the fields of design, media and technology (...and a sprinkle of artistic flair for good measure). He serves as a mentor, offering advice on everything from competitions to self-initiated projects, and provides guidance on Bachelor's and Master's thesis projects. His support extends beyond theoretical guidance, encompassing practical aspects of project realization, including content and form development, prototyping, production, and project management. Felix delights in organizing exhibitions to showcase students' outstanding projects, and if adequate to transfer curated results from the courses and the students' research fields to the [Reach Center](#) for further development.

Technology Campus Steinfurt

Located at the *Technology Campus* in the city of Steinfurt, the department of Electrical Engineering and Computer Science (ETI) at FH Münster University of Applied Sciences is a leading academic institution renowned for its focus on innovative teaching methodologies, cutting-edge research, and practical applications in the fields of computer science, electrical engineering, and information technology. The department offers a range of undergraduate and graduate programs, providing students with comprehensive knowledge and hands-on skills essential for success in today's rapidly evolving technological landscape.

With state-of-the-art facilities and a dedicated faculty comprised of industry experts and experienced academics, the school emphasises on hands-on learning experiences, collaborative projects, and industry internships to ensure students are well-prepared for careers in various sectors such as software development, IT, media-design, telecommunications, automation, robotics, and more. Additionally, the department fosters a dynamic and inclusive learning environment, encouraging students to engage in research activities, participate in international exchange programs, and explore interdisciplinary opportunities.

Felix joined as full Professor for Media-Design receiving a life-long tenure position in Spring 2024. He is currently teaching the following courses:
